

Enabling people to change their lives for the better while advancing the Global IT industry

The Creating Futures program provides FREE online information technology training and certification to veterans, individuals with disabilities, at risk youth, dislocated workers, women and minorities who are looking to pursue a career in the IT industry.

Individuals in the program have the opportunity to certify towards a number of CompTIA certifications:

- CompTIA A+
<http://www.comptia.org/certifications/listed/a.aspx>
- CompTIA Network+
<http://www.comptia.org/certifications/listed/network.aspx>
- CompTIA Server+
<http://www.comptia.org/certifications/listed/server.aspx>
- CompTIA Security+
<http://www.comptia.org/certifications/listed/security.aspx>
- CompTIA Convergence+
<http://www.comptia.org/certifications/listed/convergence.aspx>

It is recommended that individuals have basic computer knowledge in the following areas:

- Computer hardware and software
- Using operating systems
- Word processing, spreadsheet, presentation software functions
- Networks and the internet
- Electronic mail
- Using the internet
