

NJ TECH COUNCIL Student Ambassador Program

The Student Ambassador Program seeks students who are in the next generation of leaders. Through this program students will become advocates for the Council on their campus. Student Ambassador's tasks will be outlined through weekly emails and should take no more than 5 minutes per day.

Student Ambassador Goals:

- Help raise awareness on your campus of technology and innovation in the state and region

Student Ambassador Tasks:

- Promote NJ Tech Council events on Social Media
- Promote Tech Council events in the classroom; share with faculty/administrators; and make announcements at relevant classes
- Promote Tech Council events at on campus tech/entrepreneurial events such as Tech MeetUps (if on campus)
- Promote the Student Ambassador program to other students
- Get to know and support other ambassadors at your school
- Organize one event for students each academic year such as a tech meetup, workshop or social event (optional)

Requirements:

- Social Media Expertise
- Use network to promote events; for example use Twitter to retweet NJ Tech Council, share events on Facebook, Instagram, LinkedIn and/or SnapChat posts

Benefits:

- Listing yourself as a Social Media Ambassador to the NJ Tech Council on resume
- Add valuable skills to your skill set and gain professional business experience
- Networking opportunities with other ambitious students, entrepreneurs and industry executives
- Make valuable business contacts with NJ tech and life sciences companies which can lead to internships or jobs
- Recognition on the NJ Tech Council website and prizes for top performers
- Opportunities to attend exclusive NJ Tech Council events
